Introduction

Monash University

Monash University was established by an Act of the Victorian Parliament on 15 April 1958. The first meeting of the Interim Council, appointed under the transitory provisions of the Act, was held in June of that year. The Vice-Chancellor, Registrar, and the first professor took up duty early in 1960.

By the *Monash University Act 1958*, Monash University is a body politic and corporate, governed by a Council. The Monash University Council comprises a maximum of thirty-eight members either appointed or elected by various constituents so as to be broadly representative of all sections of the University and of the community it serves. The Chancellor and the Deputy Chancellor are elected by the Council, which also appoints the Vice-Chancellor, professors and other members of the teaching and non-teaching staff. The Council manages and supervises the affairs of the University and is advised by its subordinate standing committees, other boards and committees, the Vice-Chancellor, and senior officers of the University.

The seven faculties are Arts, Economics and Politics, Education, Engineering, Law, Medicine, and Science. Each faculty is headed by a dean who is chairman of the faculty board and is responsible for exercising general superintendence over the academic and administrative affairs of the faculty. All faculties except Education and Law are sub-divided into departments.

The Professorial Board, through Council, is responsible for all academic matters relating to the University. The Vice-Chancellor is, *ex-officio*, chairman of the Board. Membership includes all professors, the University Librarian, the directors of some of the University's research and service centres, and representatives elected by non-professorial teaching staff and students.

The Committee of Deans is chaired by the Vice-Chancellor and comprises the deans of the seven faculties, and the Deputy Vice-Chancellor. The Committee advises the Vice-Chancellor on many aspects of University policy and management. The Vice-Chancellor is advised on the framing of the University's annual operating budget by the Central Budgets Committee. Responsibility for expenditure within faculties is delegated to deans, and similar delegation is made to heads of other budgetary areas.

When teaching began at the University in 1961, there were ten professors and an enrolment of 363 undergraduates and graduate students. Enrolments increased rapidly and there are now over 100 professors and a student population of about 14,000.

The University site of some 100 hectares at Clayton is 20 km south-east from the city of Melbourne. The University is not primarily a residential institution, but there are five halls of residence, some University-owned flats and an affiliated residential college which provide accommodation for students. The University has extensive sporting and recreation facilities, including twelve hectares of playing fields and an ornamental lake. The Alexander Theatre and Robert Blackwood Hall are used for theatrical and musical performances, conferences, and graduation ceremonies and the Monash University Gallery mounts a range of temporary exhibitions as well as housing some of the more important works that comprise the extensive Monash University Art Collection. The Religious Centre provides an appropriate venue and place of worship for all faiths and religious societies at the University.

The University library, with a collection of some 1,300,000 volumes and 14,000 periodical subscriptions, is divided into branch libraries catering for the needs of the humanities and social sciences, physical sciences, biological sciences and medicine, and law. A well-equipped Computer Centre with an associated computing laboratory plays a central role in much of the University's teaching and research efforts through an interconnected network of some 1,500 terminals.

The on-campus work of the faculties is expanded and supported in a variety of areas by affiliated institutions. The work of the Faculty of Medicine is assisted by ten affiliated teaching hospitals and two affiliated community health centres. Other affiliated institutions cooperate with the University in research and teaching programs.

In addition to the faculties, there are numerous centres which express the research interests of groups of staff members and provide a specialised nucleus for postgraduate and some undergraduate studies. Many of these act as a focus for interdisciplinary research.

The University offers bachelor degree courses in Arts, Social Work, Economics, Information Systems, Education (postgraduate), Special Education (postgraduate), Engineering, Law, Jurisprudence, Medicine, Surgery, Medical Science, and Science. All faculties offer postgraduate diploma courses or masters by course work in various specialised fields. In most disciplines, the degrees of master and doctor and the degree of Doctor of Philosophy are available.

The University's funds are derived in the main from the Australian Government. In 1988 the government grant available for recurrent expenditure was \$100,560,000. Australian government funding for expenditure on buildings and minor works was \$497,000, and funds allocated for equipment amounted to \$5,600,000. The Australian Government supports the University's research effort directly through the Australian Research Council and indirectly through funding bodies such as the Australian Research Grants Scheme and the National Health and Medical Research Council. The Victorian Government and a number of private charitable foundations also support Monash research. The Monash University Foundation operates to encourage an increase in non-government funding to the University in support of its teaching and research programs.

This Calendar within its two volumes carries as much information as possible about the operation and government of the University, details about courses and subjects offered for study. The *Annual Report* and the *Research Report*, published annually, give more detailed information about the life and affairs of Monash, and the nature of research being conducted in the University. Copies of these publications may be purchased from the Monash University Bookshop or by application to the Registrar, Monash University, Clayton, Victoria 3168, Australia.

Sir John Monash

General Sir John Monash was born on 27 June 1865 at West Melbourne of German-Polish, Jewish parents. He was educated until the age of twelve at local schools at Richmond and Jerilderie, where his father kept a store. He then attended Scotch College, Melbourne, for four years and was equal dux of the school in 1881. He entered the University of Melbourne in 1882 but after two years had to continue part-time because of financial hardship. In 1895 he had completed degrees in Arts, Engineering, and Law and had also qualified as a municipal surveyor, an engineer of water-supply and a patent attorney. In 1894 he began private practice as a civil engineer, specialising in the new techniques of reinforced concrete, and in the following twenty years prospered from railway- and bridge-building especially.

Monash had joined the militia in 1884 and was commissioned in 1887; by 1913 he was commanding a brigade. On the outbreak of war in 1914 he took command of the 4th Brigade, AIF, and served with it throughout the Gallipoli campaign and in France in 1916. He then became major-general commanding the 3rd Division until May 1918 when he was given charge of the Australian Corps. Monash planned the battle of Hamel, in which tanks were first used with complete success, and the Aus-

Coat of Arms

Granted
20 November 1963

The Coat of Arms of the University is described as follows:

'Azure a Chevron Argent between in chief an open book proper bound clasped and edged Or and a Sword environed by a Laurel Wreath Gold and in base a representation of the constellation of the Southern Cross also Argent.'

The devices on the shield arise as follows: the open book is commonly found on the shields of universities and learned societies and symbolises the pursuit of knowledge, the stars of the Southern Cross are of course appropriate for our geographical position, and the wreath and sword are a quotation from the shield of Sir John Monash.

The motto 'Ancora Imparo' is said to have been a saying of Michelangelo and means 'I am still learning'.

Donations and Bequests

The University welcomes gifts and bequests for general purposes and also for special purposes such as furtherance of research and the establishment of fellowships and scholarships. Intending benefactors are invited to discuss terms and conditions with the Vice-Chancellor to ensure that their proposed gifts will be applied in a way most suited to their wishes and to the needs of the University.

Under existing legislation gifts to the University are allowable income tax deductions.

A suitable form of bequest is:
'I give to Monash University the sum of dollars free of all duties to be applied for the purposes of the University *either* in such manner as the Council thereof may determine *or* in the following manner..... and I direct that the receipt of the Comptroller of the University shall be a sufficient discharge to my trustee(s) for payment of that sum.'

When the manner of application is precisely specified, it is suggested that the Council be empowered to apply the gift or bequest from time to time in any manner which in the opinion of the Council is similar to or a satisfactory substitute for the specified manner. This is recommended because a specified manner of application might, with the passing of time, become inappropriate.

If the intended manner of application requires the University to retain and invest the capital, it will be greatly appreciated if express power is given to the Council to invest the capital in any form of investment it thinks fit, whether an authorised trustee investment or not, and also, if the Council thinks fit, to accumulate part of the income from time to time, to add such accumulations to the capital and subsequently to apply any such accumulation as income; these powers can be exercised to increase the amount of the capital and thereby offset the effects of inflation.

tralian Corps led the breakthrough of 8 August 1918, the 'black day of the German Army'. At the close of the war Monash's reputation stood extraordinarily high; many who were in a position to judge considered him the foremost military commander on the Allied side. He was also a general who detested war but who took fierce pride in the achievements of the Australians as an independent force.

In 1919 Monash carried out the repatriation and demobilisation of the Australian forces in Europe. In 1920 he accepted the general managership of the new State Electricity Commission of Victoria and in 1921 became full-time chairman of the Commission. The immense task of developing the State's brown coal in the Latrobe Valley as a source of electrical power, and organising the distribution and marketing of this power throughout Victoria, was carried out with notable success. He died on 8 October 1931, aged 66.

Monash was a great man of a kind which makes it peculiarly appropriate for a university to be named after him. He was a man of highly unusual intellectual range, who exemplified this University's motto in his continued study and drive for knowledge, and who was formidably well-informed in many fields other than engineering and soldiering. His greatest skill, perhaps, was his command of the English language, his lucid speaking and writing. He was conversant with many disciplines; his engineering and musical knowledge influenced his planning of battles. He also painted and drew, was an accomplished pianist, spoke French and German, enjoyed chess, carpentered, and was a bushwalker.

He pursued knowledge for its own sake, but always with an eye to its application. He was a scholar and a man of action.

Parking spaces marked
'Authorised Vehicles Only'
are specifically for
authorised vehicles.
Parking spaces for the
Handicapped or Incapacitated
are shown.

The University's roads and car parks
are subject to the provisions of the Victorian
Transport Act, and 'owner-onus' applies.
Week-day visitors between the hours of 9
and 5 should use only those car parks
marked 'P'.

KEY TO CARPARKS

	Restricted Car Parks
	Free Car Parks
	Motorcycle Parking
	Visitors 2 Hr. Parking

BY PUBLIC TRANSPORT... The simplest method is to take a train from Flinders Street or Loop stations on the Dandenong/Pakenham line to either Huntingdale or Clayton. Buses run from these stations to the campus or there is a taxi rank at Clayton. With suitable connections the trip takes about 45 minutes - but it can take longer! An inner neighborhood ticket will take you all the way via Huntingdale station and the bus, but you will need to purchase a comprehensive ticket for the trip via Clayton, which encompasses two neighborhoods. The campus is also served by buses from Box Hill, Blackburn, Belgrave, Chadstone, Jells Park-Glen Waverley, Dandenong-Mulgrave, Oakleigh and Elwood.

FROM THE CITY BY CAR... An easy route is along St Kilda Road or Kingsway/Queens Road and then on to Dandenong Road. The campus's tall Menzies Building comes into view a kilometre or so before the left turn into Wellington Road on which the main entrance is located. Allow 40-50 minutes for the trip. Drivers should note that restrictions apply in some car parks weekdays 9 a.m. to 5 p.m. and fines do apply. There is ample unrestricted parking and, closer to buildings, designated two hour visitor car parks - check the map or ask at the Gatehouse.
