WHY MONASH?

80+

Experience teaching placements

Put your learning into practice by completing at least 80 days of professional experience. You can stay local, head rural or overseas, you can be in a classroom or an integral part of a community program – the choices are endless. Build your confidence and gain real-world experience so you're job-ready when you graduate.

1+1

Double your potential

At Monash you can study two different kinds of teaching at the same time, further broadening your career opportunities with combinations like Primary and Secondary education in the same degree. Alternatively, you can choose to study a double degree, and combine your education studies with a degree from a different area.

Professional recognition

When you graduate, you'll have the qualifications to be a registered school teacher or a registered early childhood teacher in Australia. See page 4 for more information.

Honours puts you ahead

Whichever specialisation you choose, you'll graduate with an honours degree. With Monash, you'll be ready to take a leading role in your chosen education setting and teaching field.

Reputation for excellence

Monash Education is ranked No. 1 in Australia¹ and in the top 13 in the world².

Broaden your career opportunities

An education degree sets you up for careers in and outside of schools, with opportunities in youth and community education, publishing, government services, consulting, and so much more.

Gain a different perspective

Did you know you can do one of your professional experience placements in a rural school?

See page 6 for more information.

Bachelor of EDUCATION (Honours)

Education makes the world a better place.

Great teachers can change the world, one student, one classroom, one school at a time. In an education degree you'll learn so much more than lesson planning and behaviour management. You'll study the development of learners and how to work with a diverse range of students, and you'll discover that learning comes in all different forms. Studying an honours degree means you will engage more deeply with educational research and will have the opportunity to reflect on your own teaching practice.

Professional experience plays a large part of an education degree, and at Monash you'll have work placements every year, to nurture your continued growth and confidence as a teacher.

Professional recognition

To teach in a Victorian school, graduates must be registered with the Victorian Institute of Teaching (VIT).

Students planning to register and work as school teachers or early childhood teachers

in Australia or overseas should check registration requirements with local teacher regulatory bodies in case additional requirements apply.

Specialisations in early childhood education are accredited by the Australian Children's Education and Care Quality Authority (ACECQA). This means that these qualifications will be accepted for early childhood teacher registration in Victoria and most other Australian states and territories, which qualifies you to work as a teacher in licensed preschools and childcare centres in Victoria. If you plan to teach in a preschool or kindergarten setting then you'll need to register with the VIT.

All primary and secondary education specialisations (including double degrees) are accredited by the VIT using the national accreditation standards. This means that these qualifications will be accepted for school teacher registration in Victoria and all other Australian states and territories.

DOUBLE DEGREES IN EDUCATION

Study a double degree and you'll not only learn everything you need to know to be a fantastic teacher, but you'll graduate with an additional qualification in an area that you love.

Our double degrees can be studied with two different specialisations: Primary education or Secondary education. If you study a double degree with Primary education, your subject choices in your second degree won't have any influence on your education studies. If you study a double degree with Secondary education, the subjects you choose in your second degree will correspond to the teaching areas you'll be able to teach in secondary schools after you graduate.

Secondary specialist teaching areas

Choose two (or one double) specialist areas from the list below. Your teaching areas must be from the same degree (e.g. a Business double degree student must choose two from accounting, business management, economics, legal studies and social education). Some teaching areas may have additional prerequisites. Visit monash.edu/education/specialist for details.

PROFESSIONAL EXPERIENCE

With placements every year during your degree, you'll be able to apply your skills and knowledge as you learn them.

How do placements work?

Every student will be provided with a minimum 80 days of professional experience (90 days for the Early Childhood and Primary Education specialisation). This is organised by the faculty's Professional Experience Office (PEO), meaning you don't have to look for your own placements.

Standard placements take place in schools in and around Melbourne, and can be in public or private schools. You'll usually be placed in a different school for each placement.

Before you start placements, you'll have a preparation class so you know what to expect when you go to a school, what to wear, where to go, how to act professionally, and much more! You'll also get lots of support from the university during your placement so you can get the most out of your experience.

International placements

Head overseas on placement to see how teaching and learning works in different cultural settings, and get university credit for your travels. Current international opportunities include China, Cook Islands, England, Italy, Japan, Switzerland, United Arab Emirates, and Vietnam*.

* Subject to change.

Rural and regional placements

Get off the beaten track and choose a placement outside of metropolitan and suburban Melbourne. Head to the centre of Victoria's Food Bowl in sunny Mildura, or get some fresh seaside air on our Bass Coast placement, and experience learning and teaching in a different setting.

After doing the Bass Coast placement, working in a rural environment is definitely something I would consider. It's been awesome."

I had a special placement at the Monash Tech School during my degree, and really enjoyed the opportunity to work with new programs and technologies. My eyes were opened to how easily technology can be used to enhance and enrich student learning."
