

MASTER OF PUBLIC HEALTH

WANT TO GIVE YOUR HEALTH CAREER A GLOBAL EDGE?

The Monash Master of Public Health is an internationally recognised passport for careers in government, industry, aid organisations and across the health sector.

Highly regarded in industry and academia, our Master of Public Health course develops outstanding graduates who contribute to improving public health on a national and global scale. You'll be taught by Victoria's leading public health professionals including Alfred Hospital clinicians and global health experts from the Burnet Institute.

We offer a diverse list of electives, allowing you to customise your degree around your professional interests and career development. Accelerated entry points, flexible learning options and research opportunities help you realise your potential and get the most from your experience.

In the Master of Public Health you will:

- Learn how to analyse and interpret health-related data.
- Integrate knowledge and skills to public health issues and challenges; at local, national and global levels.
- Explore public health policy, programs and research.
- Gain leadership and management skills required for success in the health sector locally and globally.

COURSE STRUCTURE

PART A	PART B	PART C
<p>Expanding public health knowledge</p> <p>Develop an understanding of knowledge and skills across core areas of public health including disease and injury prevention, health policy, promotion and planning.</p>	<p>Foundations of public health studies</p> <p>Gain specialised professional knowledge through the study of epidemiology, biostatistics, research methods and challenges in public health.</p>	<p>Advanced application expertise</p> <p>Explore your interests through electives and apply your expertise in a capstone professional development unit, with the choice of a case study or research project.</p>

You may be eligible to exit early with a Graduate Certificate or Graduate Diploma if the award requirements have been met.

Course code

M6024 / CRICOS code: 094880G

Study mode

On-campus (Alfred Hospital)
Multi-modal

Intakes

First semester: February
Second semester: July

Durations

Full-time: 1-2 years depending on prior qualifications

"The thing that I have most enjoyed so far has been the interplay between my work and studies. I'm able to bring insights from my studies into my work and vice versa. This has not only benefited the richness of my learning but has also increased the value that I'm able to contribute through my work."

Sally Hartmanis

Oxford PhD Candidate, Health Economics & Genomics, and Monash Master of Public Health Graduate

SPECIALISATIONS

This program offers a choice of specialisations, so you can customise your studies around your career interests to maximise professional development. Specialisations are:

- Epidemiology
- Global health
- Health economics
- Health policy
- Health promotion
- Public health
- Research

ACCELERATED ENTRY

If you're a medical specialist, or have completed Part 1 of your specialist training, you can complete our Master of Public Health in as little as one year (full time).

We also offer an 18-month direct-entry option for recent public health or medical graduates.

RESEARCH

Monash is at the forefront of health care improvement research in Australia and recognised globally for research excellence.

As part of the Master of Public Health, you can choose to complete a research project or case study, under the guidance of one of our public health experts. This can be used as a pathway to a graduate research degree, such as a Doctor of Philosophy.

CAREER OPPORTUNITIES

Studying a Master of Public Health can lead to a range of rich and rewarding careers, both in Australia or overseas, including:

- Biostatistics and data analysis
- Clinical trials management
- Government and policy
- Health administration and management
- Health communications and health promotion
- Public health research.

"The knowledge I gained through my studies has given me a very different perspective on health and the language and confidence to be better equipped to take on new challenges. I'm so grateful for the perspective and friendships that my masters has given me."

Dr Gillian Singleton

Medical Director, Cabrini Asylum Seeker and Refugee Health Hub and Master of Public Health graduate (2019)
