PREFACE

Monash University was established by an Act of the Victorian Parliament on 15 April 1958 after the immediate acceptance by the Government of the advice of the Murray Committee. This committee was appointed by the Commonwealth Government in December 1956 with Sir Keith Murray, chairman of the University Grants Committee in the United Kingdom, as chairman, to inquire into and report upon the needs of Australian university education. While the committee was in Victoria, the Government obtained its special recommendations upon the early establishment of a second university in the State.

The University bears the name of Sir John Monash, a Victorian of great distinction. A biographical note on him appears on page 11.

In June 1958 an Interim Council, appointed under the transitory provisions of the *Monash University Act 1958* and charged with the duty of taking "all such steps as may be necessary in order that the Council of the University may be duly constituted upon the appointed day", held its first meeting. The site of 250 acres at Clayton was acquired and with the advice of architects a master plan for its development was adopted.

The Vice-Chancellor, Registrar, and the first Professor took up duty early in 1960. Rapid progress with the buildings and the appointment of additional staff leading to the development of the teaching programme enabled the opening of

the University in its permanent quarters by the Premier of Victoria on 11 March 1961. This was three years earlier than originally envisaged.

Teaching began with an enrolment of 363 undergraduates and graduates in the faculties of Arts, Economics and Politics, Engineering, Medicine, and Science.

The Interim Council, having discharged its duty, was replaced by the permanent Council on 3 July 1961. Enrolments rose to 798 in 1962, 2,923 in 1964 and to 8,466 in 1968.

The enrolment figure in 1976 is expected to be 13,600. It is hoped to house as many full-time students as possible in halls of residence, the first of which was opened in 1962. A faculty of Law was established in 1964 when graduate studies in education were also introduced. The faculty of Education was formally constituted in 1965.

The University offers the degrees of Bachelor, Master, Doctor of Philosophy, and higher Doctorates, as well as graduate diplomas in education and a number of other fields. Its first Bachelor degrees were conferred at the beginning of the 1964 academic year.

The University's funds are derived in the main from the Australian Government, which finances all recurrent and capital expenditure and a major part of research expenditure (either directly or through government-financed institutions).

SIR JOHN MONASH

General Sir John Monash was born on 27 June 1865 at West Melbourne of German-Polish, Jewish parents. He was educated until the age of twelve at local schools at Richmond and Jerilderie, where his father kept a store. He then attended Scotch College, Melbourne, for four years and was equal dux of the school in 1881. He entered the University of Melbourne in 1882 but after two years had to continue part-time because of financial hardship. In 1895 he had completed degrees in Arts, Engineering, and Law and had also qualified as a municipal surveyor, an engineer of water-supply and a patent attorney. In 1894 he began private practice as a civil engineer, specializing in the new techniques of reinforced concrete, and in the following twenty years prospered from railway- and bridge-building especially.

Monash had joined the militia in 1884 and was commissioned in 1887; by 1913 he was commanding a brigade. On the outbreak of war in 1914 he took command of the 4th Brigade, A.I.F., and served with it throughout the Gallipoli campaign and in France in 1916. He then became major-general commanding the 3rd Division until May 1918 when he was given charge of the Australian Corps. Monash planned the battle of Hamel, in which tanks were first used with complete success, and the Australian Corps led the breakthrough of 8 August 1918, the "black day of the German Army". At the close of the war Monash's reputation stood extraordinarily high; many who were in a position to judge considered him the foremost military commander on the Allied side. He

was also a general who detested war but who took fierce pride in the achievements of the Australians as an independent force.

In 1919 Monash carried out the repatriation and demobilization of the Australian forces in Europe. In 1920 he accepted the general managership of the new State Electricity Commission of Victoria and in 1921 became full-time chairman of the Commission. The immense task of developing the State's brown coal in the Latrobe Valley as a source of electrical power, creating a hydro-electric network and organizing the distribution of power throughout Victoria was carried out with notable success. He died on 8 October 1931, aged 66.

Monash was a great man of a kind which makes it peculiarly appropriate for a university to be named after him. He was a man of highly unusual intellectual range, who exemplified this University's motto in his continued study and drive for knowledge, and who was formidably well-informed in many fields other than engineering and soldiering. His greatest skill, perhaps, was his command of the English language, his lucid speaking and writing. He was conversant with many disciplines; his engineering and musical knowledge influenced his planning of battles. He also painted and drew, was an accomplished pianist, spoke French and German, enjoyed chess, carpentered, and was a bushwalker.

He pursued knowledge for its own sake, but always with an eye to its application. He was a scholar and a man of action.

COAT OF ARMS

Granted 20 November 1963

The Coat of Arms of the University is described as follows:

“Azure a Chevron Argent between in chief an open Book proper bound clasped and edged Or and a Sword environed by a Laurel Wreath Gold and in base a representation of the constellation of the Southern Cross also Argent.”

The devices on the shield arise as follows: the open book is commonly found

on the shields of universities and learned societies and symbolizes the pursuit of knowledge, the stars of the Southern Cross are of course appropriate to our geographical position, and the wreath and sword are a quotation from the shield of Sir John Monash.

The motto “Ancora Imparo” is said to have been a saying of Michelangelo and means “I am still learning”.

DONATIONS AND BEQUESTS

The University welcomes gifts and bequests for general purposes and also for special purposes such as the furtherance of research and the establishment of fellowships and scholarships. Intending benefactors are invited to discuss terms and conditions with the Vice-Chancellor to ensure that their proposed gifts will be applied in a way most suited to their wishes and also to the needs of the University.

Under existing legislation gifts to the University are allowable income tax deductions and bequests are not subject to Victorian probate duty or Federal estate duty.

A suitable form of bequest is:

"I give to Monash University the sum of.....dollars free of all duties to be applied for the purposes of the University *either* in such manner as the Council thereof may determine *or* in the following manner.....

.....
and I direct that the receipt of the Comptroller of the University shall be

a sufficient discharge to my trustee(s) for payment of that sum."

When the manner of application is precisely specified, it is suggested that the Council be empowered to apply the gift or bequest from time to time in any manner which in the opinion of the Council is similar to or a satisfactory substitute for the specified manner. This is recommended because a specified manner of application might, with the passing of time, become inappropriate.

If the intended manner of application requires the University to retain and invest the capital, it will be greatly appreciated if express power is given to the Council to invest the capital in any form of investment it thinks fit, whether an authorized trustee investment or not, and also, if the Council thinks fit, to accumulate part of the income from time to time, to add such accumulations to the capital and subsequently to apply any such accumulations as income; these powers can be exercised to increase the amount of the capital and thereby offset the effects of inflation.
