TROUBLESHOOTING MY.APP

Sometimes workplace firewall systems and other issues interfere with the MY.APP account set up, so you can try using a personal email rather than a work email, or follow the below tips to troubleshoot:

Outlook email users may find the password setup link fails if they open it directly in the Outlook application. To avoid this, please access your email from a web browser.

If you complete the sign up and don't receive the password email, check your 'Junk Mail', or give it some time and try signing up again. First, clear your 'Cookies' and 'Cached':

- In a Google Chrome browser, select the 3 vertical dots in the top right corner
- Scroll down to 'More Tools' and then select 'Clear Browsing Data',
- Make sure 'Cookies' and 'Cached' are selected and click 'Clear Data'
- Now you're ready to complete the sign-up again.

We hope this makes things easier and we are happy to take your questions at any time at [mnhs- studentrecruitment@monash.edu](mailto:mnhs-studentrecruitment@monash.edu).

We wish you all the best in your application and hope to see you at Monash soon.

Warm regards,
