

Caulfield 14 May: Eat and run for LA gold

Chisholm Gazette

Vol 1 No 5

27 April 1984

Chisholm's Olympic hopeful, the Director Mr Patrick Leary, sweats it out during an early morning training run at the Frankston campus.

The Great Chisholm Challenge Handicap will be run at Caulfield Campus on Monday 14 May as a highlight of a breakfast in support of the Australian Olympic team's bid for gold at Los Angeles.

Chisholm's champion, Patrick Leary, admits he missed out on qualifying for this year's games but sees the Handicap as the first step in his preparations for 1988.

He is being prepared and programmed by the Faculty of Technology to reach a peak for the race.

Engineering, well known for its efforts in the Mileage Marathon event, is taking an active interest.

Mr Leary's opponent in the run will be Max Binnington, former Olympic contestant and Commonwealth Games team captain and medallist.

He says although he does not share Mr Leary's aspirations for future games, he is in strict training and aims to show what he re-

gards as 'this blanky new chum' a thing or three.

While Mr Leary and Mr Binnington are sweating it out around the streets of Caulfield, less athletic types will be hoeing into the champagne, orange juice, cereal, bacon and eggs, toast and tea or coffee to follow in the Chisholm restaurant.

A video tape of the race is planned so the breakfasters can view it at leisure a few minutes after it finishes.

Guest of honor and speaker at

the breakfast will be Mr Julius (Judy) Patching, Secretary General of the Australian Olympic Federation.

The organisers are catering for up to 400 people and hope to raise between \$2000 and \$3000 for the Olympic team.

While the race will be a strictly amateur affair, the breakfast is being sponsored by G J Coles, Kellogg (Aust) and Seppelt and Sons.

Tickets are available at \$15 each from Alan Hamstead in the Finance Branch.

'Moomba' for Japan

Organiser of 'Young Australia Glass', Mr Klaus Zimmer, has been invited to contribute his own work to the international exhibition 'Glass '84 In Japan' later this year.

Mr Zimmer, a senior lecturer in Glass Studies, School of Art and Design, was asked to participate in the exhibition by the President of the Japan Artcraft Association, Mr Kyohei Fujita.

The exhibition of works by artists from 11 countries outside Japan will be shown initially in

Tokyo and later travel to the Otami Memorial Art Museum, Nishinomiya, where it will be on display from 29 September to 21 October.

An awards ceremony will be held at the opening party on 14 September at the Tokyo Exhibition Hall.

Mr Zimmer's work chosen for the exhibition by the Japanese selection panel is a collection entitled 'Moomba'.

'Murphy's Law', a contemporary improvisation ensemble performed at Chisholm's Caulfield campus on Tuesday 10 April, as part of the Staff Club's busy program of activities.

Sunday concerts make a welcome return

The Staff Club's popular Sunday concert series resumes on 6 May featuring baroque music played by some of its leading exponents.

The first of the three concert series is entitled 'Bach and the Boys' and will see the Melbourne Musicians directed by Frank U. Pam performing works by J.S. Bach, C.P.E. Bach, Purcell, Pachelbel, Handel and Vivaldi.

The second in the series, on 27

May, is 'The Sensational 1600s' with the Telemann Ensemble, and the third, on 17 June, is entitled 'Monteverdi with Friends' with La Romanesca.

All three concerts will be held in B Block at the Caulfield campus.

The concerts start at 11.30 am and break for a roast lunch which is included in the ticket price of \$12 a concert or \$30 for the series.

For tickets, phone 573 2133.

Workshop to teach inventors the road to success

The Federal Minister for Science and Technology, Mr Barry Jones, will launch stage one of the 1984 Victorian Enterprise Workshop to be held at the Institute's Caulfield campus from 14 - 25 May. The Workshop aims to help Australian inventors turn their ideas into financial successes.

Chisholm won the opportunity to offer the Workshop following a co-ordinated effort involving the Deputy Director, Dr Tom Kennedy, David Syme Business School, the Schools of Engineering and Computing and Information Systems, and Development Director, Dr Bill Briggs.

Participants will learn the skills needed to be an entrepreneur with flair.

Dr Briggs says they will become familiar with the business planning needed to turn an original high technology idea into an international marketing success story.

The program will include research planning and development, financial planning and control, and manufacturing and marketing procedures.

Dr Briggs says in the past many Australian inventions have not been exploited because the inventors lacked the marketing expertise to profit from their ideas.

'The Workshop will be far more

than a classroom exercise', he says.

Teams of participants will plan the development of an invention from its working model through to launch and distribution in world markets.

Technical appraisal, market analysis, manufacture, marketing and the raising of capital will all be scrutinised.

The second phase of the Workshop, involving residential sessions, will take place later this year, followed by presentation in October of completed business plans and procedures to a State panel of judges comprising leading businessmen and government representatives.

Final judging of the national winner will be held during November, with teams competing for the major prize of a two week overseas trip to the country of their choice.

Speakers at the Workshop will be drawn from Chisholm staff and industry, and will include Dr Clive Coogan, of the CSIRO (who is Vice-President of the Institute Council), Mr Peter Mitchell, Chairman of Moonie Oil, and Mr Ainslie Jolley, representing the Victorian Chamber of Manufactures.

Dean of the David Syme Business School, Dr Ken Tucker, will direct the Workshop program, with the support of Dr Brian Jenney, Acting Dean of the School of Engineering, and Mr Gerry Maynard, Acting Dean of the School of Computing and Information Systems.

The team will draw heavily on the expertise of Mr John Bailey, a senior lecturer in Management and Entrepreneurship at DSBS.

Swinburne Institute of Technology is also running a Victorian Enterprise Workshop during the same period.

Institute moves for self-accreditation

The Institute has made the first formal move towards self-accreditation of courses, but not without controversy.

The April meeting of Council vigorously debated the issue before endorsing the Director, Mr Patrick Leary's action in writing to the Accreditation Board late last month applying for declared status.

He said he feared a premature move would result in Chisholm's application failing.

Mr Leary told the Council that he saw the Academic Board minutes as indicating an expression of view rather than opposition to proceeding since no resolution had been adopted.

He said Chisholm was not ready to apply when Council set declared status as an objective in September last year.

But the situation had since changed.

Mr Leary said self-accreditation was the natural progression from the joint internal/external accreditation arrangements made for this year.

'I believe we have reached the point where we are in good shape

and our internal accreditation procedures are operating at the same level as external procedures.

'In my judgement, it is time to go,' Mr Leary said.

Dr Clive Coogan agreed, saying Chisholm had taken the right step in applying now.

Mr Leary reported that he had lodged the application and planned to meet with the Board's secretary to discuss the matter further.

But Council and Academic Board member, Mr Bill Morton, questioned the move referring to discussion at the 14 March meeting of the Academic Board.

The minutes recorded that although 'some concern was expressed that a formal application for declared status had not been made ... because Chisholm's new accred-

itation procedures had yet to be fully tested and because of recent developments with the Faculty of Technology, it was considered prudent to delay'.

Mr Morton said this was the majority view of the Academic Board.

He noted that a number of other Colleges of Advanced Education already had applications in the pipeline.

'For a College of our size and status not to apply would be a tacit admission that something was very seriously wrong,' he said. Dr Coogan added that in his opinion 'it would be most unlikely that Chisholm would not receive self-accreditation'.

Asbestos action reaffirmed by council

A staff member who worked in the asbestos-lined thermodynamics laboratory is undergoing medical tests for possible asbestos related disease.

The Director, Mr Patrick Leary, told Council about the case after one Council member questioned the expenditure of between \$70,000 and \$80,000 to strip asbestos lining from the laboratory.

Mr William Morton noted that a report to Council said the asbestos lining the laboratory 'could be a health hazard' and asked whether a probability of damage to health of people working in the area had been calculated.

He questioned whether the \$70,000 to \$80,000 to be spent on stripping the asbestos from the area could be better spent eliminating some other hazard.

He also asked whether staff who worked in the area had been medically examined.

Mr Leary told the meeting all staff who had worked in the area had been offered a free medical examination as soon as the danger from the asbestos lining had been identified.

So far, five had taken up the offer and in one case, the preliminary examination had indicated a possible health problem related to asbestos.

This was being further investigated.

Mr Leary noted that the Institute's Health and Safety Committee had recommended stripping the asbestos and had reaffirmed that decision despite the Health Commission's strong recommendation that stripping was unnecessary and surface treatment would meet the case.

Dr Lionel Ward told Council that as far as he was concerned, it was not a matter of probabilities or more or less risk - the asbestos lining was a health hazard and the Institute had to get rid of it.

'The Buildings and Property Committee members believe that in the circumstances we do not have any options,' he said.

Dr Fedora Trinker supported him.

'We have an obligation as a responsible employer,' she said.

The thermodynamics laboratory was closed last December after the asbestos lining was identified in a survey of the Institute carried out by the Safety Officer, Mr Alex Glennie.

Grants

Student prize

The Australian Group for the Scientific Study of Mental Deficiency invites the submission of research manuscripts from students relating to the causes, diagnosis, prevention and or treatment of mental retardation and allied conditions.

Entrants will be eligible for a \$100 annual prize.

Closing date for applications is 30 April.

Indian

Applications are open for Indian Government Post-graduate Scholarships for 1984/85.

Duration of the scholarships is for up to two years.

Closing date for applications is 14 May, 1984.

For more information and/or application forms for these grants and scholarships, contact the Development Director, Dr Bill Briggs, at the Caulfield Campus.

CHISE

CHISHOLM IN-SERVICE EDUCATION

PROGRAMS FOR 14 - 18 MAY (NON-TEACHING WEEK)

- | | | |
|--|----------------------------|-----------------|
| • CPL (Command Procedure Language) | Thursday 17 May | (9am - 12.30pm) |
| • SPSS (Statistical Package for the Social Sciences) | Monday 14 & Tuesday 15 May | (9am - 4pm) |
| • Introduction to PRIMOS | Monday 14 & Tuesday 15 May | (9am - 4pm) |
| • CP/M (Operating System for Microcomputers) | Wednesday 16 May | (9am - 4pm) |

Those members of Chisholm staff interested in attending the workshops above, please contact the EDU Secretary on extension 2376 to register. All courses are held on the Caulfield Campus.

Ceramics on show at City venue

The ultra-modern banking chamber of the ANZ Bank headquarters in the Collins Place complex in the City will be the setting for an exhibition next month by staff and students of Chisholm's Ceramic Design Department.

The exhibition will be open during banking hours from 21 May to 1 June.

Head of Ceramic Design, Mr Lindsay Anderson, says the main emphasis of the exhibition will be glass design.

He says the natural lighting from the large windows in the banking chamber will be the perfect backdrop for the glass exhibits.

Mr Anderson says he hopes the exhibition will allow viewers to discover the many dimensions of ceramics.

He wants people to realise that there is more to ceramics than clay pottery that has been hand built or worked on a wheel.

The exhibition will show the many dimensions using clay, cement and glass that has been worked in functional and non-functional pieces.

There will also be a move away from the traditional flat stained glass so often seen in churches.

In its place will be panels that have been built up to give a three-dimensional effect.

Exhibits on view at the ANZ Bank headquarters will not be for sale as many pieces are under consideration for an exhibition at the Hessisches Landes Museum in Darmstadt, West Germany, in December this year.

The School of Art and Design's Exhibition Officer Sian Adnam (left) and Ceramics student Kathy Griffiths discuss how best to utilise the magnificent Collins Tower venue for the display of Chisholm ceramics work.

Council liason

Chisholm Council has adopted a proposal to establish a standing liaison committee with Caulfield City Council and will investigate similar arrangements with Frankston, Malvern and other local government councils.

The Chisholm/Caulfield committee will consider:

- Caulfield campus site development
- planning of traffic flows around the Caulfield campus

- joint action to resolve car parking problems
- development and fostering of relationships between the Institute and the surrounding community in Caulfield
- Institute/Council co-operation in providing services.

The standing committee will comprise four members of each council and will meet at least four times a year.

Draft report 'threatening': Kennedy

The Deputy Director, Dr Tom Kennedy, has sounded a warning about the draft report on membership of College of Advanced Education Councils and Council committees.

Speaking at the April meeting of Chisholm Council, Dr Kennedy said

he was very concerned about the detailed recommendations in the Draft Report of the Ministerial Working Party to Review the Membership of Councils and Sub-committees of Colleges of Advanced Education.

'I may be alarmist, but I find it a very threatening document,' Dr Kennedy said.

He noted that while the working party's terms of reference were to address broad principles rather than detail, he saw the recommendations in its draft report as very detailed and intrusive into college affairs.

He questioned the detail in membership guidelines which laid down such things as male/female proportions for Council membership, college community/general community proportions, numbers of ex-officio members, and Academic Board structure.

But Council President, Mr Ken Green, said while he took Dr Kennedy's point, he regarded the document as 'middle of the road, given the political context.'

'If the final document which goes to the Minister is not much different from this, then we can consider ourselves comparatively lucky,' he said.

'It is not that far from the submission we made ourselves.'

Another member, Mr John Ryan, told the meeting that he saw the draft report as a political statement, and Council should deal with it in that light.

'It is an attempt by the government to enforce its general policies in this area,' he said.

Chisholm Endeavour, the recreational and educational program for head injured people, has received a funding boost from the Federal Government.

The Department of Sport, Recreation and Tourism has approved a \$1000 grant for 1983/84, with a further commitment of \$1000 for 1984/85.

The Department made the decision on the basis of recommendations by the National Committee on Sport and Recreation for the Disabled.

Since its inception two years ago, the program has provided many young adults who have suffered traumatic head injury with the opportunity to participate in a range of activities which encourage skills in personal development, socialisation and a variety of recreational and educational options.

Many of the participants are among the growing number of victims of road accidents, while others have suffered head injuries through sporting, domestic or work accidents.

Chisholm Endeavour is a joint project of the Yooralla Society under the direction of Mrs Pamela Threlfall (based at the Frankston campus), and the Division of Continuing Education.

Links have also been established with the School of Education, which last year introduced the program as an elective for third year teacher education students.

One of the founding organ-

isers of the program is Dr Brian Parton, a principal lecturer with the School of Education.

He describes Endeavour as 'an important community service', and says it provides 'wonderful experience for our students.'

'Working with any special group is not everyone's cup of tea, and some of the students are initially distressed.'

'But it's marvellous to see how well they are interacting with the participants by the end of the semester.'

Dr Parton says reaction from the participants themselves has been very positive since the program gives them the opportunity to meet regularly with people their own age and enjoy a range of activities.

The three hour sessions, held every Wednesday afternoon at the Frankston campus, are broken up into physical activities such as indoor hockey or dancing, more passive activities like drama or pottery, and individual activities in which students work on a one to one basis on an activity of the participant's choice.

Funding boost for Chisholm Endeavour

More Frankston contact urged

Members of Chisholm's Council have been urged to take time to visit the Frankston campus to meet staff there and hear what they have to say.

The Vice-President, Dr Clive Coogan, told the April meeting that 'Council has a real problem with people on the Frankston campus - they don't get enough opportunity to talk to us'.

Dr Coogan's comments followed a recent visit he made to Frankston to discuss with School of Education staff the development of the Institute on that campus.

He said he had found the people there forthright and frank and the discussions had been very fruitful.

But, he said, the Frankston campus staff felt cut off from Council.

'A few rushed words over dinner when we meet at Frankston are not enough,' Dr Coogan said.

'I think we very consciously must attempt to establish stronger links with Frankston.'

Singers of the Australian Opera Company have banded together for a concert in aid of 'Young Australian Glass' at Chisholm's Caulfield campus on 1 May.

The concert follows the success of a similar one staged at RMIT's Glass House Theatre on 17 April.

An impressive line-up of performers will present a varied program of songs from composers such as Mozart, Verdi, Strauss, Gilbert and Sullivan, Rossini and Rogers.

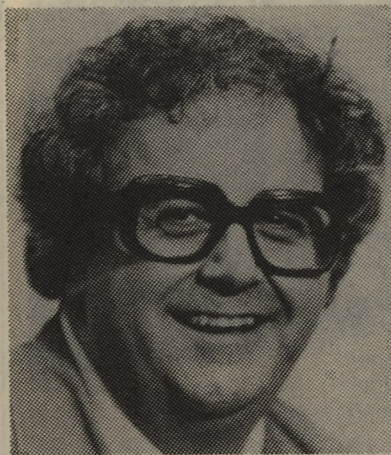

Marie Driscoll, who will perform French cabaret songs by Satie.

The performers are, Deborah Riedel (a recent finalist in the prestigious New York Metropolitan Opera Auditions), Donald Solomon,

Star studded line-up for glass expo concert

Peta Blyth, Vincenzo Nesci, Elizabeth Allen, John Miley, Marie Driscoll, Bonita Surene, Gordon

Melbourne-born character tenor, Gordon Wilcock, who will sing the comedy role of the Judge in the concert version of 'Trial by Jury'.

Wilcock, Olga Sanderson-Smith, Kathryn Dineen, David Macatamney, and accompanist Julia De Plater.

All artists will appear by arrangement with the Australian Opera.

The concerts are the result of an offer of help by singer, Ms Elizabeth Allen, in fundraising for the glass exhibition, to be held in Germany during December, organised by Chisholm's Klaus Zimmer.

Admission to the concert, in B2.18 at 8pm, is by program. Donation \$5. Programs are available from E. Caruso, telephone 573 2241 during business hours (room B5.21).

THE PROGRAM

1. (a) The Strutting Lovers - Folksongs from Britain.
(b) Down by the Sally Gardens
(c) Oliver Cromwell - arr. Britten.
DEBORAH RIEDEL
2. 'When a Maiden Takes your Fancy (Il Seraglio) - Mozart
DONALD SOLOMON
3. 'La Ci Darem La Mano' (Don Giovanni) - Mozart
PETA BLYTH
VINCENZO NESCI
4. 'Home to Our Mountains' (Il Trovatore) - Verdi
ELIZABETH ALLEN
JOHN MILEY
5. (a) Je te veux
(b) Le Chapelier - French Caberet Songs by Satie
(c) Diva de L'Empire
MARIE DRISCOLL
6. The Laughing Song (Die Fledermaus) - Strauss
PETA BLYTH
7. The Sentry's Song (Iolanthe) - Gilbert and Sullivan
DONALD SOLOMON
8. 'There is Beauty in the Bellow of the Blast' (The Mikado) - G & S
BONITA SURENE
GORDON WILCOCK
9. (a) 'Sunrise, Sunset' (Fiddler on the Roof) - Bok
(b) 'Silvered is the Raven Hair' (Patience) - G & S
OLGA SANDERSON-SMITH
10. 'O Faithless One' (The Pirates of Penzance) - G & S

- OLGA SANDERSON-SMITH**
JOHN MILEY
11. (a) 'Out of My Dreams' (Oklahoma) - Rogers
(b) The Trolley Song (Meet Me in St Luois)
KATHRYN DINEEN
 12. Comic Duet for Two Cats - Rossini
DEBORAH RIEDEL
KATHRYN DINEEN

And also . . . **TRIAL BY JURY** - Gilbert and Sullivan (Concert Version), starring Gordon Wilcock as the Judge, Plaintiff (Peta Blyth), Counsel (David Macatamney), Defendant (John Miley), Usher (Donald Solomon).

Mezzo soprano, Deborah Riedel. She was recently a New York finalist in the Metropolitan Opera Auditions.

Classifieds

FOR SALE

Bike - Brand new 27" 5 speed. National City Commuter. Men's frame, mudguards, chain guard, stand, \$180. Phone Lucia Andrews ext. 2576 or 5577103.

Home made chocolates made to order. Phone Carol Lees ext. 2484 (Caulfield).

PUBLIC NOTICES

Two fire-fighting courses organised by the Metropolitan Fire Brigade will be held at the Caulfield campus on Monday 14 May and Tuesday 26 June.

The course will last for about one and a half hours, and will consist of a short lecture, a film, and a practical demonstration of fighting a fire.

Anyone interested in attending either of the sessions should contact Chisholm Safety Officer, Mr Alex Glennie, through heads of departments.

DEADLINE FOR THE NEXT GAZETTE IS TUESDAY 1 MAY. COPY CAN BE LEFT WITH THE PUBLIC RELATIONS OFFICE, C1.08, OR PHONE EXTENSION 2311.

PRINTING SERVICES

offers you the following services . . .

- designing, typesetting and complete art
 - same day service for class notes, minutes & agendas and all general printing (1.1 per side - dept. funds)
 - colour printing • posters • brochures • leaflets
 - reports & covers • business & compliments cards
 - manuals • letterheads • newsletters
 - course material
 - collating • binding • stapling • folding
 - guillotining • drilling
- We also have a pick-up and delivery service.

(For further inquiries ring extension 2135)
Located on ground floor, C Block, Room C1.04, Caulfield Campus

Election of Members of the Academic Staff to the Discipline Procedures Panel

At the close of nominations on 6 April 1984, the following valid nominations had been received in respect of the above election:

ANKER, Keith	Maths
BOND, Ted	Graphic Des.
BUSBY, Spirit	App. Soc.
CAMPBELL, Ian	Chem. & Biol.
COSTAR, Brian	Humanities
DEUTSCHER, Ken	Mech. Eng.
DEVAPRAGASAM, Sheila Ed.	
LA GERCHE, Geoff	Fine Art
McMILLAN, Roderick	Humanities
MILNER, Bob	Civil Eng.
TOWNSEND, Tony	Ed.
RYAN, Hazel	Management

As the number of nominations is the same as the number of vacancies, the above are declared elected.

T.F. SMITH,
Returning Officer.

Do you want to avoid getting influenza this winter?

- Think seriously about 'flu vaccine if:
- You suffer from a chronic or recurrent disease such as affecting heart, lungs or kidneys,
 - You are receiving drugs for cancer or kidney disease,
 - You work in medical or health services.
 - You work in essential public occupations
 - You feel like a quick jab . . . because you don't want to be laid out by a virus for a week or two.
- Just come across to your friendly **HEALTH SERVICE** at 7 Princes Avenue.

Texas teaching rounds

Ten teacher education students from Chisholm's Frankston campus have just returned from five weeks' practice teaching in Texas.

The visit was just one of the options open to third year students for practice teaching placements.

Other options included placements in the Nepean Special School, Worawa Aboriginal College, the Chisholm Endeavour program for head injured people, and country schools.

Senior lecturer with the School of Education Mr Ron Whyte says sending students overseas for practice teaching is nothing new, although this year the location was changed.

In the past students visited Vancouver in Canada, and this will again be offered next year, with southern California the destination for the following year.

Future trips to Asia and the Pacific Islands are also on the drawing board, Mr Whyte says.

This year the students were housed at North Texas State University, with teaching practice offered in North Texas elementary schools.

According to Mr Whyte, 'the whole idea is that not only are they expected to teach, it's also a first hand opportunity for them to look at comparative education'.

The party was accompanied by Mr Leon Costermans, a senior lecturer with the school.

What's On

STAFF CLUB

CIT-COUSTIC

Performances are held on Tuesdays from 12.30 - 1.30 p.m. in B2.18 (Caulfield) and the George Jenkins Theatre (Frankston)

1 May - Caulfield: Shauna Beasley (soprano) and Marshall McGuire (piano, harp)

Frankston: Victorian College of the Arts Brass Quintet - Works from Renaissance to Ragtime.

8 May - Caulfield: Victorian College of the Arts Brass Quintet - Works from Renaissance to Ragtime.

Frankston: Mark Dunbar (flute) presents works by Ibert, Villa-Lobos, Guitiani.

CIT-MARKET

Held every Wednesday in conjunction with the Student Union, from 11 a.m. - 2 p.m. in the grounds of Caulfield Campus. (Under cover if wet.)

CIT-FLIX

Chisholm Film Group. Screenings are on alternate Thursdays in B2.14 at 12.30 and 6 p.m. Admission is \$2.50 for Staff Club Members and \$3.50 for others.

10 May - 'Firefox' with Clint Eastwood - Based on the novel by Thomas Craig.

CIT-SPEAKS

Lunchtime discussions by staff members on topics of their choice. Held on alternate Thursdays in B2.14 from 12.15 - 1 p.m.

3 May - Mr. Lindsay Evans, Lecturer, Mathematics. Subject: Industrial Consultancy: Can an academic be useful to industry?

NATIONAL ART CONFERENCE

A national conference of visual art educators in May is being organised by two lecturers at Chisholm's School of Art and Design (Frankston campus).

Program co-ordinators, Mr Phil Perry and Mr Bob Greaves, say the Institute of Art Education's 4th Annual Conference will bring together teachers, student teachers, academics, curriculum designers, administrators and art advisors from throughout Australia.

The theme this year will be Art Education - Policies, Priorities, Programs.

The conference will run from 13 - 17 May at Queen's College, Melbourne University.

Guest speakers will include Dr Drora Booth, lecturing on pre-school art, 1983 winner of the Archibald and Sulman prizes, Mr Nigel Thomson, Dr Ken McKinnon, Chairman of the State Board of Education of Victoria, and Professor Ron MacGregor, Head of the Department of Visual and Performing Arts in Education at the University of British Columbia.

Chisholm fine art tutor, Mr Henk Bak, will speak on 'Art in Rudolph Steiner Schools', and Mr Greaves himself will run a woodwork workshop.
