

Course progression map for 2023 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

MPH – Level ONE entry – 96 credit points

M6024 - Master of Public Health (96 credit points) - Full-time – Semester ONE

Master of Public Health (Epidemiology)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part A or C unit	Part A unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	MPH5218 Infectious diseases: epidemiology & prevention	Part A unit
Year 2 Sem1	MPH5200 Regression methods for epidemiology OR MPH5270 Advanced statistical methods for clinical research (Sem2) (Prereqs: Credit average in MPH5040 + MPH5041)	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5236 Clinical trials (Prereqs: MPH5040 + MPH5041)	Part A or C unit
Year 2 Sem2	Part C unit: One of MPH5214 Demography methods or MPH5270	Part A or C unit	Part A or C unit	MPH5289 Professional practice development (not required for Part C, B Research)

Part A. Expanding public health knowledge (24 points)
Part B. Foundations of public health studies (24 points)
Part C. Advanced application expertise (48 points)

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester TWO

Master of Public Health (Epidemiology)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	Part A unit
Year 1 Sem 1	MPH5200 Regression methods for epidemiology OR MPH5270 Advanced statistical methods for clinical research (Sem2) (Prereqs: Credit average in MPH5040 + MPH5041)	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5236 Clinical trials (Prereqs: MPH5040 + MPH5041)	Part A unit
Year 2 Sem2	MPH5213 Research methods	Part C unit: One of MPH5214 Demography methods or MPH5270	MPH5218 Infectious diseases: epidemiology & prevention	Part A or C unit
Year 2 Sem1	Part A or C unit	Part A or C unit	Part A or C unit	MPH5289 Professional practice development (not required for Part C, B Research)

M6024 - Master of Public Health (96 credit points) - Part-time – Semester TWO

Master of Public Health (Epidemiology)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem 1	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	Part A unit
Year 2 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	MPH5236 Clinical trials (Prereqs: MPH5040 + MPH5041)	MPH5200 Regression methods for epidemiology OR MPH5270 Advanced statistical methods for clinical research (Sem2) (Prereqs: Credit average)

Course progression map for 2023 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

		<i>in MPH5040 + MPH5041)</i>
Year 3 Sem2	Part A or C unit	MPH5218 Infectious diseases: epidemiology & prevention
Year 3 Sem1	Part A or C unit	Part A or C unit
Year 4 Sem2	Part C unit: One of MPH5214 Demography methods or MPH5270	MPH5289 Professional practice development (not required for Part C, B Research)
Year 4 Sem1	Part A or C unit	Part A or C unit

	Part A. Expanding public health knowledge (24 points)
	Part B. Foundations of public health studies (24 points)
	Part C. Advanced application expertise (48 points)

Electives:

- MPH5200 Regression methods for epidemiology (recommended)
- MPH5214 Demographic methods (recommended)
- MPH5270 Advanced statistical methods for clinical research (recommended)
- MPH5239 Systematic reviews and meta-analysis
- MPH5256 Injury epidemiology and prevention
- MPH5277 Data management and computing
- MPH5283 Ethics, good research practice and practical research skills
- [Approved postgraduate unit/s](#) offered by the School of Public Health and Preventive Medicine (except units MPH5020; MPH5301-MPH5320; EPM5001-EPM5028; EPM5030).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester ONE

Master of Public Health (Research)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part A unit	Part A or C unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	Part A unit	Part A or C unit
Year 2 Sem1	Part A or C unit	Part A or C unit	MAP5000 Research in advanced health professional practice (12cpts)	
Year 2 Sem2	Part A or C unit	Part A or C unit	MAP5010 Advanced health practice research project (12cpts)	

	Part A. Expanding public health knowledge (24 points)
	Part B. Foundations of public health studies (24 points)
	Part C. Advanced application expertise (48 points)

M6024 - Master of Public Health (96 credit points) - Part-time – Semester ONE

Master of Public Health (Research)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part A	Part A or C unit
Year 2 Sem2	Part A	Part A or C unit
Year 3 Sem1	Part A or C unit	Part A or C unit
Year 3 Sem2	Part A or C unit	Part A or C unit
Year 4 Sem1	MAP5000 Research in advanced health professional practice (12cpts)	
Year 4 Sem2	MAP5010 Advanced health practice research project (12cpts)	

Course progression map for 2023 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester TWO

Master of Public Health (Research)

This specialisation is not available in this mode as the units don't fit into the course map.

M6024 - Master of Public Health (96 credit points) - Part-time – Semester TWO

Master of Public Health (Research)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem 1	Part A	Part A
Year 2 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part A or C unit	Part A or C unit
Year 3 Sem2	Part A or C unit	Part A or C unit
Year 3 Sem1	Part A or C unit	Part A or C unit
Year 4 Sem2	MAP5000 Research in advanced health professional practice (12cpts)	
Year 4 Sem1	MAP5010 Advanced health practice research project (12cpts)	

	Part A. Expanding public health knowledge (24 points)
	Part B. Foundations of public health studies (24 points)
	Part C. Advanced application expertise (48 points)

Electives:

- MPH5200 Regression methods for epidemiology
- [Approved postgraduate unit/s](#) offered by the School of Public Health and Preventive Medicine (except units MPH5020; MPH5301-MPH5320; EPM5001-EPM5028; EPM5030).

Course progression map for 2023 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester ONE

Master of Public Health (General)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part A unit	Part A or C unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	Part A unit	Part A or C unit
Year 2 Sem1	Part A or C unit	Part A or C unit	Part A or C unit	Part A or C unit
Year 2 Sem2	Part A or C unit	Part A or C unit	Part A or C unit	MPH5289 Professional practice development (not required for Part C, B Research)

	Part A. Expanding public health knowledge (24 points)
	Part B. Foundations of public health studies (24 points)
	Part C. Advanced application expertise (48 points)

M6024 - Master of Public Health (96 credit points) - Part-time – Semester ONE

Master of Public Health (General)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part A	Part A or C unit
Year 2 Sem2	Part A	Part A or C unit
Year 3 Sem1	Part A or C unit	Part A or C unit
Year 3 Sem2	Part A or C unit	Part A or C unit
Year 4 Sem1	Part A or C unit	Part A or C unit
Year 4 Sem2	Part A or C unit	MPH5289 Professional practice development (not required for Part C, B Research)

Course progression map for 2023 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester TWO **Master of Public Health (General)**

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	Part A
Year 1 Sem 1	Part A or C unit	Part A or C unit	Part A or C unit	Part A
Year 2 Sem2	MPH5213 Research methods	Part A or C unit	Part A or C unit	MPH5289 Professional practice development (not required for Part C, B Research)
Year 2 Sem1	Part A or C unit	Part A or C unit	Part A or C unit	Part A or C unit

M6024 - Master of Public Health (96 credit points) - Part-time – Semester TWO **Master of Public Health (General)**

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem 1	Part A	Part A
Year 2 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part A or C unit	Part A or C unit
Year 3 Sem2	Part A or C unit	Part A or C unit
Year 3 Sem1	Part A or C unit	Part A or C unit
Year 4 Sem2	Part A or C unit	MPH5289 Professional practice development

Course progression map for 2023 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

		(not required for Part C, B Research)
Year 4 Sem1	Part A or C unit	Part A or C unit

	Part A. Expanding public health knowledge (24 points)
	Part B. Foundations of public health studies (24 points)
	Part C. Advanced application expertise (48 points)

Electives:

- [Approved postgraduate unit/s](#) offered by the School of Public Health and Preventive Medicine (except units MPH5020; MPH5301-MPH5320; EPM5001-EPM5028; EPM5030).
